

Bobbytails Dog Training presents:

Chicken Clicker Training for Dog Trainers

**Workshop Sunday 22nd April 2012
Northamptonshire (just off M1 junction 16)
9.00am to 4.30pm**

Chicken training workshops and courses have been in existence in America for some years and are useful for Dog Trainers, Animal Trainers, would be Dog Trainers and Dog Enthusiasts. They are a great experience and can help improve mechanical skills. Whether you are teaching agility, obedience or tricks; good timing is everything when training any animal! Animals get frustrated when things don't 'work' for them; learn how to avoid frustration whilst getting rid of unwanted behaviour – extinction bursts should not be the 'norm' or acceptable.

On this one day 'hands on' course you will put the science into practice and learn about: *Desensitisation • Classical Conditioning • Operant Conditioning • Discrimination •*

Extinction • Counter Conditioning • Shaping • Avoiding frustration • Instinctual Drift and much more....

A Sense of Humour Essential !

Limited places available £75.00

Early Bird Discount applies if booked before 9th March 2012 £65.00

Spectator places are not available on this course

Refreshments provided throughout the day

Early booking is advisable to avoid disappointment.

Contact Julie - Tel: 07762 712901

Email: julie@bobbytails.org.uk for more information or to book a place.

Please note; it is not possible for dogs to be present at this course.

If you can train a Chicken, you can train just about any animal !

This course provides evidence for and supports the Kennel Club Accreditation Scheme for Instructors in Dog Training and Canine Behaviour (KCAI). Specifically modules A5 and C5
