

Bobbytails Dog Training presents:

Detective Dogs

How good is your dog's nose?

**Begins Monday 6th June 2011
At The Memorial Hall
Woodford Halse, Northamptonshire.
6.45pm to 8.00pm**

In this 4 weekly session workshop you can teach your dog to identify a specific scent and conduct searches in the same way as drugs and bomb sniffer dogs. Though we won't be using drugs or bombs!! You will learn about scent pictures, directed and free searches and how to handle your dog whilst searching. Working always as a team with your dog you will build mutual trust as you introduce him/her to active searches.

We will concentrate on enhancing your dog's natural nose work skills so that you can have fun together. Scent work provides mental stimulation for your dog and can be exhausting. We will not be covering competition style scenting on this workshop.

A Sense of Humour Essential!

Limited places for owner plus dog £30.00 for the 4 week course

Spectator places also available

Refreshments provided

Contact Julie - Tel: 07762 712901

e-mail: julie@bobbytails.org.uk for more information or to book a place.
